

The regular meeting scheduled for January 21, 2020 did not have a quorum, thus the following are considered notes. Additionally, as this was not a meeting, no motions were made.

Members Present: Kelly, Davies, Kenny

Committee/Alternate Members Present: West

No minutes were available for review.

City Council member Davies reported that the Van Wycke Project has been discontinued by the City Council.

Committee member Kenny advised that in October the Trinidad Rancheria lost a ramp from the harbor, a loading dock that landed on Old Home Beach. She further stated there is debris on the beach that needs to be cleaned up, and advised that a complaint has been sent to the Coastal Commission. The Rancheria has stated they will take care of it.

It was also mentioned that the toe of the Axel Lindgren trail is a mess near the beach, and needs work.

A discussion regarding the draft Trails Policy occurred between all members present.

- There was a question about the connecting trails, so this was put on a future agenda.

The next official meeting is April 21, but it may be moved up to get the Trails Policy completed. It was difficult to come up with an earlier meeting date, so it is hoped that an earlier date could be arranged.

Composed by Alternate Member: City Council member Jack West
